

— RECLAIM OUR — **DEMOCRACY**

**TELL CONGRESS TO SUPPORT
THE FOR THE PEOPLE ACT (H.R. 1)**

1-888-848-4824 

Tell the person who answers the phone: I support the For the People Act for a fair and functioning democracy. The bill will make it easier to vote and get secret money out of our elections.

Corporate CEOs and the wealthiest 1% have spent decades rigging the system to reduce our power. That has made it harder and harder to pass legislation that helps working people and makes a real difference in our lives.

The same corporate interests that fight us at the bargaining table are stacking the rules against us when it comes to political participation. They have put restrictions in place that make it harder for people to vote, flooded elections with money and weakened the rules that prevent elected officials from profiting from their public service.

It's gone way too far and it's time to do something about it. **Ask your member of Congress to support the For the People Act to ensure a fair and functioning democracy for us all.**
